

Fusion

Fusion (*Alumaplate*) is an exceptionally high-performance, architectural aluminum façade. Fusion (*Alumaplate*) was created with flexibility and ease of the designer in mind. Equally effective as an exterior rainscreen application or in the interior space, Fusion (*Alumaplate*) comes in several of solid aluminum gauges to meet your specification needs. Using the same licensed, proprietary, sublimation technology as Mosaic (*Alumaboard*), Fusion (*Alumaplate*) can be finished in a variety of color and visual texture options including wood, marble, granite or just about any custom color you can imagine. Class "A" fire rated and NFPA 285 compliant, Fusion (*Alumaplate*) offers a durable solution ideal for high traffic areas including lobbies, elevator wraps, or interior gathering spaces. As a 100% recyclable material made in the USA, Fusion (*Alumaplate*) can also help your project meet many of your green building initiatives.

USES:

Architectural Rainscreen system for exterior cladding or interior wall applications. Great for elevator or column wraps.

SPECIALTY FINISHES
