POUR STOPS

Lumabuilt offers custom-fabricated flashings and pour stops designed to complement and complete any Mosaic installation. Each component is built to project-specific dimensions and profiles, ensuring a precise fit and seamless integration with surrounding materials. Using our proprietary sublimation and finishing processes, these pieces can be matched to any Mosaic woodgrain, color, or specialty finish for a cohesive, uninterrupted aesthetic. Whether functional, decorative, or both, Lumabuilt's custom flashings provide the finishing detail that elevates every project.

Let us help you design the finishing touches.
