

Design Smarter with LEED-Supporting Materials

As a dedicated USGBC member, Lumabuilt designs products that help support sustainable building practices. Lumaplate materials may contribute to select LEED credits when incorporated into qualifying assemblies. Visit the LEED Credit Library and use the resources included here to determine how our products can assist your project's certification goals.

Prime Aluminum Billet Content %	78% made from 3-5% recycled aluminum	MR Credit 4.1 Recycled Content 10% = 1 pt.
Pre-Consumer (Post-industrial) Recycled Aluminum Billet Content %	4%	MR Credit 4.2 Recycled Content 20% = 1 pt.
Post-Consumer Recycled Aluminum Billet Content %	17%	
Is Material Extraction within 500 mile radius of Material Manufacturing?	Material is sourced worldwide.	MR Credit 5.1 Regional Materials 10% Extracted/Harvested, Processed & Manufactured Regionally (within 500 mi.) = 1 pt. MR Credit 5.2 Regional Materials 20% Extracted/Harvested, Processed & Manufactured Regionally (within 500 mi.) = 1 pt.
EPDs	General Industry EPD for Aluminum Extrusions (Document available upon request)	
Safety Data Sheets	Documents available by request	
VOC Testing	Powder Coat finishes contain no solvents and therefore emit negligible polluting VOC's into the atmosphere.	EQc4.2 Low-emitting materials – paints and coatings
